

Declaration of 100% Renewable Energy Utilisation

To whom it may concern,

We, Dutch Carbon Consultants B.V., hereby declare that we have conducted a thorough review and verification process concerning the electricity consumption of Fastned B.V. for the period 01-01-2024 up and until 31-12-2024.

Our assessment has included an in-depth analysis of Fastned B.V.'s energy usage, sourcing, and the associated Guarantees of Origin (GoOs). The Guarantees of Origin serve as proof, certifying that the electricity consumed by Fastned B.V. is sourced exclusively from renewable energy resources.

It is with certainty that the electricity used by Fastned B.V. within the aforementioned period has been covered by the Guarantees of Origin. For The Netherlands, Belgium and Germany, these Guarantees of Origin are accredited evidence that the electricity comes from solar and wind. For other markets where Fastned operates, the Guarantees of Origin also include hydro and other renewable sources next to solar and wind.

We, Dutch Carbon Consultants, are pleased to provide this declaration based on the results of our verification process. Should there be any inquiries or need for further information regarding this declaration, please do not hesitate to contact us.

Sincerely,

Derek Groot

Director
